

WORLD OF RADIO #1282, produced July 27, 2005 by Glenn Hauser
[for full credits, listen to show or consult recent DXLDs]

*Standard disclaimer

*Predictions about the adoption of DRM on shortwave, slowly or never

*DW says new module for multi-standard receivers will put DRM in reach for cost-conscious consumers

*DRM software will remain available -- Media Network blog July 27

*iBiquity will have to fight codec war with Microsoft over IBOC

*Hurricane Dennis destroyed two ``Fat Albert`` aerostat dirigibles which were antenna platforms for TV Marti; plans to replace at \$2.8 million; schedule cut back

*Airborne Commando Solo broadcasts of Radio Marti on 530, missing Saturday July 23 at 2200, due to threat of Franklin?

*TeleSur, new satellite TV service debut July 24, backed by Venezuela and other countries. A source of great controversy in Latin and North America: Congress passed amendment for 30 minute daily broadcasts to Venezuela, but Pres. Chavez denounces it and promises to jam any broadcast from the US. See recent DXLDs for much more about this:

*Proposed by Connie Mack, R-FL; based in Caracas, with 51 percent paid for by Venezuela; also Cuba, Uruguay, Argentina. VOA had special broadcast to Colombia with no problem. Venezuelan ambassador says VOA and commercial US networks are already on cable TV across Venezuela; might call it R. Free Venezuela, or offensively, R. Bolivar. Chavez acting like a tyrant not allowing opposition. TeleSur at first only 4 hours a day; on the air in Cuba, but no details [and Argentina]

*R. Verdad, Guatemala, 4052.5, off the air for 10 days as of July 25

*HRVC, Honduras, reactivated on SW 4819v after three years, with new amplifier tubes, since 2200 UT July 23, and widely reported thruout Americas, Europe, Pacific; as late as 0740, all night?

*Consolation for supporters of R. For Peace International; person responsible for its demise in Costa Rica lost his job: Maurice Strong as top UN envoy to N Korea, in oil for food scandal, nepotism, ties to S Korean businessman with kickbacks from Saddam Hussein

*R. Quito, La Voz de la Capital, Ecuador, now active on 4919 as late as 0610

*DTK revised mid-summer A-05 schedule still shows R. Cimarrona, Sun & Mon 22-23 in Spanish on 9480, 100 kW Juelich, 220 degrees for Uruguay. This went off several months ago, so are they really back? Please check

*5400 is another Argentine SSB feeder with different stations; 0226 heard on LSB with R. Diez, 710, Buenos Aires

*Clockwise thru Europe:

*German court has charged Ernst Zundel with 14 counts of incitement, trial in November at the earliest. Nazi holocaust denier was on WRNO,

WRMI and WGTG, and on Kaliningrad 1386 for two weeks

- *R. Slovakia International saved from closing SW for the time being, with a council to meet August 24 to decide what to do
- *R. Sweden has reliability problems with Sackville, Canada relay 1330 on 15240; twice in past week disrupted: July 21 fill music and apologies; July 26 just open carrier, but OK after 1400 from Sweden in Swedish direct. Sweden should back up Sackville at 1330
- *1,282nd WOR is now semi-finished
- *WOR is no longer delayed on WSUI, Iowa City, Sundays 10:30 pm CT, on 910 plus streaming <http://wsui.uiowa.edu><http://wsui.uiowa.edu>
- *Itunes now lists World of Radio as does <http://www.radiotime.com>
- *But get WOR directly from <http://www.worldofradio.com/audiomid.html>
- *Our address: woradio at yahoo.com or P O Box 1684, Enid, OK 73702, USA; contributions via PayPal at <http://worldofradio.com>
- *Tnx this week for financial support to Clayton Stapleton
- *R. Tatra International, Slovakia, relay since July 20 on 1350, 50 kW via Latvia; and at least in evenings from 1700 past 2300 on SW 9290. Operator of these KREBS TV, offers to QSL, altho RTI itself will not. Report to tesug @ parks.lv or P O Box 371, LV-1010, Riga, Latvia
- *WOR expected to return to Radio Studio X, Italy
- *Studio X has a new problem, another Italian on 1584 kHz, R. Verona, since July 24, now atop it at midday in Bologna
- *Counter-clockwise thru Africa:
- *Libya's new 7320 via France, heard at 0300-0400 in Arabic, except French news at 0325; also at 0110-0250+ with only English at 0228-0233; another day English at 2215. B-05 tentative schedule shows this straight thru from 19 to 04, and probably so already, 500 kW, Issoudun, 185 degrees across Africa, despite good signal in NAM
- *Polisario from Algeria has been on 7466, causing WWCR to zero-beat it from 7465, but on July 25 heard back on 7460, again with QRM from RFA in Korean via Mongolia [around 2100?]. Also on MW 700
- *Star Radio, Liberia, still widely heard via Ascension, 07-09 on 9525, 21-22 on 11965
- *Another Liberian station wants to resume SW: Liberia Broadcasting System launched fund drive for SW and TV transmitters; building in ruins since civil crisis
- *Great to have astute group of monitors worldwide, such as:
- *Iwao Nagatani in Japan reporting that R. Okapi started evening service in French, 16-17 on 11890 via South Africa, as well as 04-06 on 11690; for Congo DR
- *African on 6612 is second harmonic of R. Zimbabwe, 3306, mistuned with little signal on fundamental, around 0100, 0300, 0530, 1900, 2100; on the air 24 hours. Get it while it lasts
- *Zanzibar's reactivated SW: also heard on 6015 from *0258 with xylophone tuning signal; 11735 includes news in Swahili at 17, English at 18; lately 11735 missing again. July 26 at 18, R. Nova Visao, Brasil heard instead on 11734.9 in Michigan. Zanzibar opens at 1500, but Turkey is on same until 1556; also North Korea until 1450

- *R. Solmal, or R. Soomal, via DTK Juelich, Germany: Fridays only 1330-1400, 130 degrees, 100 kw, in Somali
- *BBG via Dhabbaya, UAE, 1170 switched from R. Farda to R. Sawa, while 1575 continues with R. Farda
- *Official from All India Radio says they hope to close down their external service ASAP, costing \$10 mega a year with no discernible audience; contradicts other reports of expansion plans
- *CKMX 1060, Calgary, flipped formats to Classic Country, so the same on SW 6030 relay CFVP; 100 watts heard in California, UT Monday 0441-0503 with Marti and jammers off; also heard in New Zealand at 0631-0640 fade
- *CBC's largest union, Canadian Media Guild, voted 87% in favour of a strike, but bargaining continues; earliest strike or lockout date is August 15
- *RCI had to suspend its toll-free phone number in Brasil due to abuse
- *Media Ownership Reform Act of 2005 would end media consolidation, etc., sponsored by Maurice Hinchey, D-NY and Diane Watson D-CA. See http://www.house.gov/apps/list/press/ny22_hinchey/morenews/071405mediabill.html
No number yet; see <http://www.house.gov/hinchey/issues/mora.shtml>
- *The High Noon Effect: D-layer can start reflecting signals instead of absorbing them on MW at midday only when solar activity is high, and in the summer [noon by Local Mean Time, ya know, not DST]
- *KOA Denver link on 25950 FM heard at 1830 in TN thanks to Sporadic E
- *Active region of the sun is returning to view July 28
- *Propagation outlook from Boulder; flux range 90-120-80
- *Bob Cooper advises that now is the time to try for tropospheric ducting DX between Hawaii and California on VHF and UHF; you must be on the coast at just the right altitude; perhaps continuing thru August 1. See maps at http://home.cogeco.ca/~dxinfo/tropo_enp.html
- *Glenn Hauser, concluding World of Radio 1282 ###
